

STATEMENT SUE MORENO MANAGEMENT

Through 'samsam music' an album has been released –in effective and through streaming- titled "*Sue Moreno Live at the Sunhouse + Studio Recordings*".

This album has been pushed without any collaboration or approval of Sue Moreno Productions®. Therefore, it is a direct and criminal ownership infringement plus an attack on the intellectual proprietorship. On top of that, the registered trademark name of Sue Moreno® has been used without approval.

The material consists of rejected and dismissed recordings by Sue Moreno Productions® and her management. Apparently also some live recordings have been made without notice and released without any consultation or approval.

Sue Moreno Productions® and Sue Moreno® management do not stand for the poor quality of this album.

Unfortunately, numerous artists have been harmed by "samsam music", in artistic or financial ways. Please note: This statement is not about lost income but all about the damage of *good* quality we stand for here at SueMoreno.com. We never approved of this album, and we never will.
